Re: 2022 Paid Family Leave

In 2022, the deduction rate will remain the same, at 0.511% of gross salary including overtime. The benefit rate will increase, based on an updated New York State Average Weekly Wage (NYSAWW).

Employees taking Paid Family Leave receive 67% of their average weekly wage, up to a cap of 67% of the current statewide average weekly wage. For 2022, the SAWW is \$1,594.57, which means the maximum *weekly* benefit is \$1,068.36. **This is \$96.75 more than the maximum weekly benefit for 2021.**

The 2022 maximum employee contribution will be \$423.71 per employee. The goal amount on the pay stub shows the maximum but that is NOT what every employee will pay, only that it cannot exceed that amount.

The deduction is based on gross bi-weekly wages including overtime, therefore it may fluctuate from paycheck to paycheck. Employees earning less than the cap of \$82,917 will not reach the maximum contribution.

The rate of deduction and benefit is set by the NYS Department of Financial Services.

Attached is a sample chart of deductions and bi-weekly benefits.
